#HL7 #HL7UK

#INTEROpen

@HL7UK @HL7 @ProfRecordsSB

Dr Bob says...

“National standards for interoperability should be developed and enforced, with an expectation of widespread interoperability of core data elements by 2020.”

Agenda

1230 – 1300	Lunch and networking	
1300 – 1305	Introduction	Philip Scott
1305 – 1320	Overview of HL7 FHIR	Rik Smithies
1320 – 1340	How NHS Digital is using FHIR	Richard Kavanagh
1340 – 1410	INTEROpen on FHIR: a vision for supplier-led and clinically validated implementation	Amir Mehrkar Phil Koczan Dunmail Hodgkinson
1410 – 1420	CDA on FHIR – can it be done?	Richard Kavanagh
1420 – 1430	Q&A	
1445 – 1510	Break	
1510 – 1550	Workshop	
1550 – 1620	Feedback	Philip Scott
1620 – 1630	Summary and next steps	

Workshop: Discuss in order of relative importance for your group (or modify)

1. Where does FHIR offer the greatest benefit?
2. What are the obstacles to implementing FHIR?
3. What quality assurance is needed for UK profiles?
4. How will implementers cope with an iterating “standard”?
5. What guidance is needed for system procurements?
6. What gaps exist in the FHIR specification?
7. What scenarios/use cases would be useful for hack days?
8. How can HL7 UK, PRSB, INTEROpen and NHS Digital help FHIR strategists and implementers?

Summary and next steps

- Planning UK 'clinical FHIR connectathon' with realtime links (video, voice, chat) to next HL7 International working group meeting in San Antonio – **20 Jan 2017** (Friday pm ☹)
